Boudoir photography is typically photography that romanticizes and celebrates the female form. It is often done as a gift to ones lover. Boudoir photography is typically suggestive, romantic and is often shot with the model nude, semi nude or with implied nudity. Boudoir Photography is almost always done in the studio with a bedroom setting using tasteful and classy props to enhance the feeling of romance and richness. We are prepared to travel with our location lighting to light your won bedroom or location that you would like us to photograph. Because of the time to create the set and light it, boudoir photography is more expensive than outdoor glamour photography.

Deposits

All photography sessions require a deposit to secure the session. Shoots are not confirmed without deposits. Deposits can be paid by cash or by check. Allow 10 days for your check to clear. Deposits are refundable up to 14 days prior to shoot date. **Call (570) 842-9852 to book your photography session.**
